# SHWETABH PATEL

## DATA ANALYST

## PROFILE

Detail-oriented and analytical-minded with a passion for data analysis. Possesses a solid foundation in statistics, programming, and database management. Skilled in Python, SQL, and data visualization tools. Eager to leverage academic knowledge and practical experience to contribute effectively as a Data Analyst.

## WORK EXPERIENCE

### Data Analyst Intern

i-SOFTZONE02/2024 - PRESENT

- Assisted in Data Analysis.
- Collected and cleaned datasets for analysis using power bi and SQL.
- Created visualizations and reports to communicate data insights.

## PROJECTS

### Library Management System

- Developed a database-driven library management system using MySQL, ensuring efficient cataloging, circulation, and management of books and user records.
- Implemented database schema design, query optimization, and data normalization techniques to enhance system performance and reliability.

### Job Posting Analysis

- Utilized Power BI to analyze job postings data, extracting insights on trends in job requirements, skills demand, and geographic distribution.
- Designed interactive dashboards and visualizations to facilitate data-driven decision-making for recruitment strategies and workforce planning.
